THE FUTURE OF THE PIANO

Kawai America – Who We Are

Kawai America is a manufacturer and distributor of the highest quality acoustic, digital, and hybrid pianos available anywhere. Established in 1963, our pianos can be found in nearly every school music program across the country.

Kawai's piano replacement solutions place emphasis on the following attributes:

QUALITY

Kawai pianos have reached the pinnacle of international acclaim. Found on concert stages throughout the world, they continue to be selected by gold medal winners and finalists at prestigious international piano competitions across the globe.

Kawai has become one of the most celebrated companies in the global music products industry having received over 48 major international awards for product and service excellence.

PARTNERSHIP

Kawai has active partnerships with the following higher education institutions. Through our EPIC Partnership program, these institutions have replaced a significant portion of their piano fleets with new Kawai instruments. The ongoing relationship provides access to scholarship funding, loan instruments at no cost, and periodic technical service support.

- Chapman University – Orange, CA
- The Colburn School – Los Angeles, CA
- Columbia College Chicago – Chicago, IL
- Conservatoire de Musique du Quebec, Canada
- Interlochen Center for the Arts – Interlochen, MI
- Jacksonville University – Jacksonville, FL
- LaGrange College – LaGrange, GA
- Reinhardt University – Waleska, GA
- Shorter University – Rome, GA
- University of Southern Mississippi – Hattiesburg, MS
- University of West Georgia – Carrollton, GA
- Wayne State University – Detroit, MI
- Wheaton College – Wheaton, IL

INNOVATION

Kawai pioneered the use of composite materials in the piano's action (the engine of the piano). Our Millennium III Action utilizes Carbon Fiber to provide improved performance, durability, speed, power, and control. Consistent, stable actions are a hallmark of the Kawai brand and what sets us apart from others.

Hybrids represent new breed of musical instruments created by the fusion of acoustic and digital piano elements. Kawai offers both Acoustic Hybrids (traditional acoustic pianos with digital piano functionality) and Digital Hybrids (advanced digital pianos equipped with important acoustic piano components). All are designed to enhance the enjoyment, capabilities and performance of the player.

AFFORDABILITY

Kawai recognizes the financial challenges faced by college music programs and has developed programs specifically designed to help schools replace their existing, worn-out pianos with new ones.

The Kawai EPIC Partnership makes new pianos available to schools at sponsored cost levels. Funding from the Shigeru Kawai Endowment puts the dream of a world-class fleet of instruments within reach of any school.

The Kawai loan program makes new instruments available immediately with no cost to the institution. New instruments are placed in the school at the beginning of the year and sold at an on-campus sale event at the end of the year. This cycle can be repeated each year until funding for school acquisition of instruments becomes available.

Our response to the RFP follows.

Phase 1:

Kawai will loan an assortment of Grand and Upright pianos at no charge to the school. Pianos would be placed in the school upon the award of this RFP to Kawai.

Specific models to be determined based on the most pressing needs of the music department but would include a minimum of 3-4 Grand Pianos and 4-5 Upright Pianos. A sample assortment could be:

- 1 Kawai GL-40 5'11" Grand Piano
- 2 Kawai GL-30 5'5" Grand Piano
- 2 Kawai K-400 48" Professional Upright Piano
- 2 Kawai K-300 48" Professional Upright Piano
- 1 Kawai UST-9 46.5" Institutional Upright Piano

At the end of the school year, at a date mutually agreed to by the school and Kawai, an on-campus sale would be conducted to sell the loaned instruments, along with pianos from the current UMW fleet. At the conclusion of the sale, new instruments would replace the previous loaned pianos. Proceeds from sold UMW fleet pianos would be used to purchase new Kawai instruments.

Phase 2:

New pianos will be offered for purchase based on the schools stated needs. Pricing is based on EPIC Partnership status attainment and is valid for 180 days. It is understood that fundraising for a project of this size could take a number of years. Prices on this list are subject to a 5-7% increase per annum after 180 days.

- i. Piano Faculty Studio – 2 grand pianos
 - a. 2 Shigeru Kawai SK-6 7' Semi-Concert Grand Pianos - \$55,500 ea.
- ii. Other Faculty Studios – 2 grand, 3 upright pianos
 - a. 2 Kawai GL-40 5'11" Classic Grand Pianos - \$19,045 ea.
 - b. 3 Kawai K-400 48" Professional Upright Pianos - \$6,760 ea.
